Hello Customer,

Welcome to the latest **FeneVision newsletter**. This newsletter is part of our on-going commitment to supporting our customers' success by sharing actionable advice to boost your business, the latest news on enhancements to FeneVision and early access to training and events.

We're here to help you thrive. Please share this newsletter within your organization.

## Did you know?

### This month's focus is on Opti-Break

**Feature:** Ability to preview upcoming sheets within Opti-Break Dynamic mode without going to the next sheet.

**Why:** As an operator, I want to see the next sheet, but not click next pattern as that will mark the pattern complete and depending on the cutting line, sends a unexpected status update.

**How:**

- While within a release, double click of the pattern number in the lower left corner of the screen.

- This will load the 'Pattern Editor' screen which allows you to see the pattern that's coming up without toggling between next pattern and previous pattern.
- To not change status, select Run to leave the screen and go back to the standard screen.

**Versions Available:** Most.

Check out some of our module level virtual tours, such as the RMA Module for a self-guided tour of products you would like to learn more about, but not ready for a demo.

### Employee spotlight

We are excited to announce **Garrit Corlett's promotion to FeneVision Product Manager**, effective March 17, 2025. Garrit will be focused on our short-term and long-term product roadmap which will focus on user experience, scalability and continuous innovation to support our customer's continuous growth.

Garrit began his career as a FeneVision software tester and development co-op while attending Ohio Northern University. After graduating, he joined as an Applications Engineer, implementing FeneVision for Window, Door, and Flat Glass Fabricators, worldwide. He later became Group Manager of Professional Services and most recently served as Group Manager for the R&D team. With his 13 years of dedication, expertise, and passion for innovation, Garrit will continue to drive our product's success and create incredible experiences for our users.

Please join us in congratulating Garrit Corlett on this well-deserved achievement!
